

Exploring the Internet of Things with Mozilla

Monday Project Meeting
March 21, 2016

A hub in the Mozilla Leadership Network

**How do we express Mozilla's values
in the Internet of Things?**

The Approach

Principles

Learning by making

Take action and reflect on the process and results.

Participatory and inclusive

Foster creativity from the edges and embrace open practices.

Strength in networks

Engage allies and invite new practitioners to explore alongside us.

Activities

Prototypes

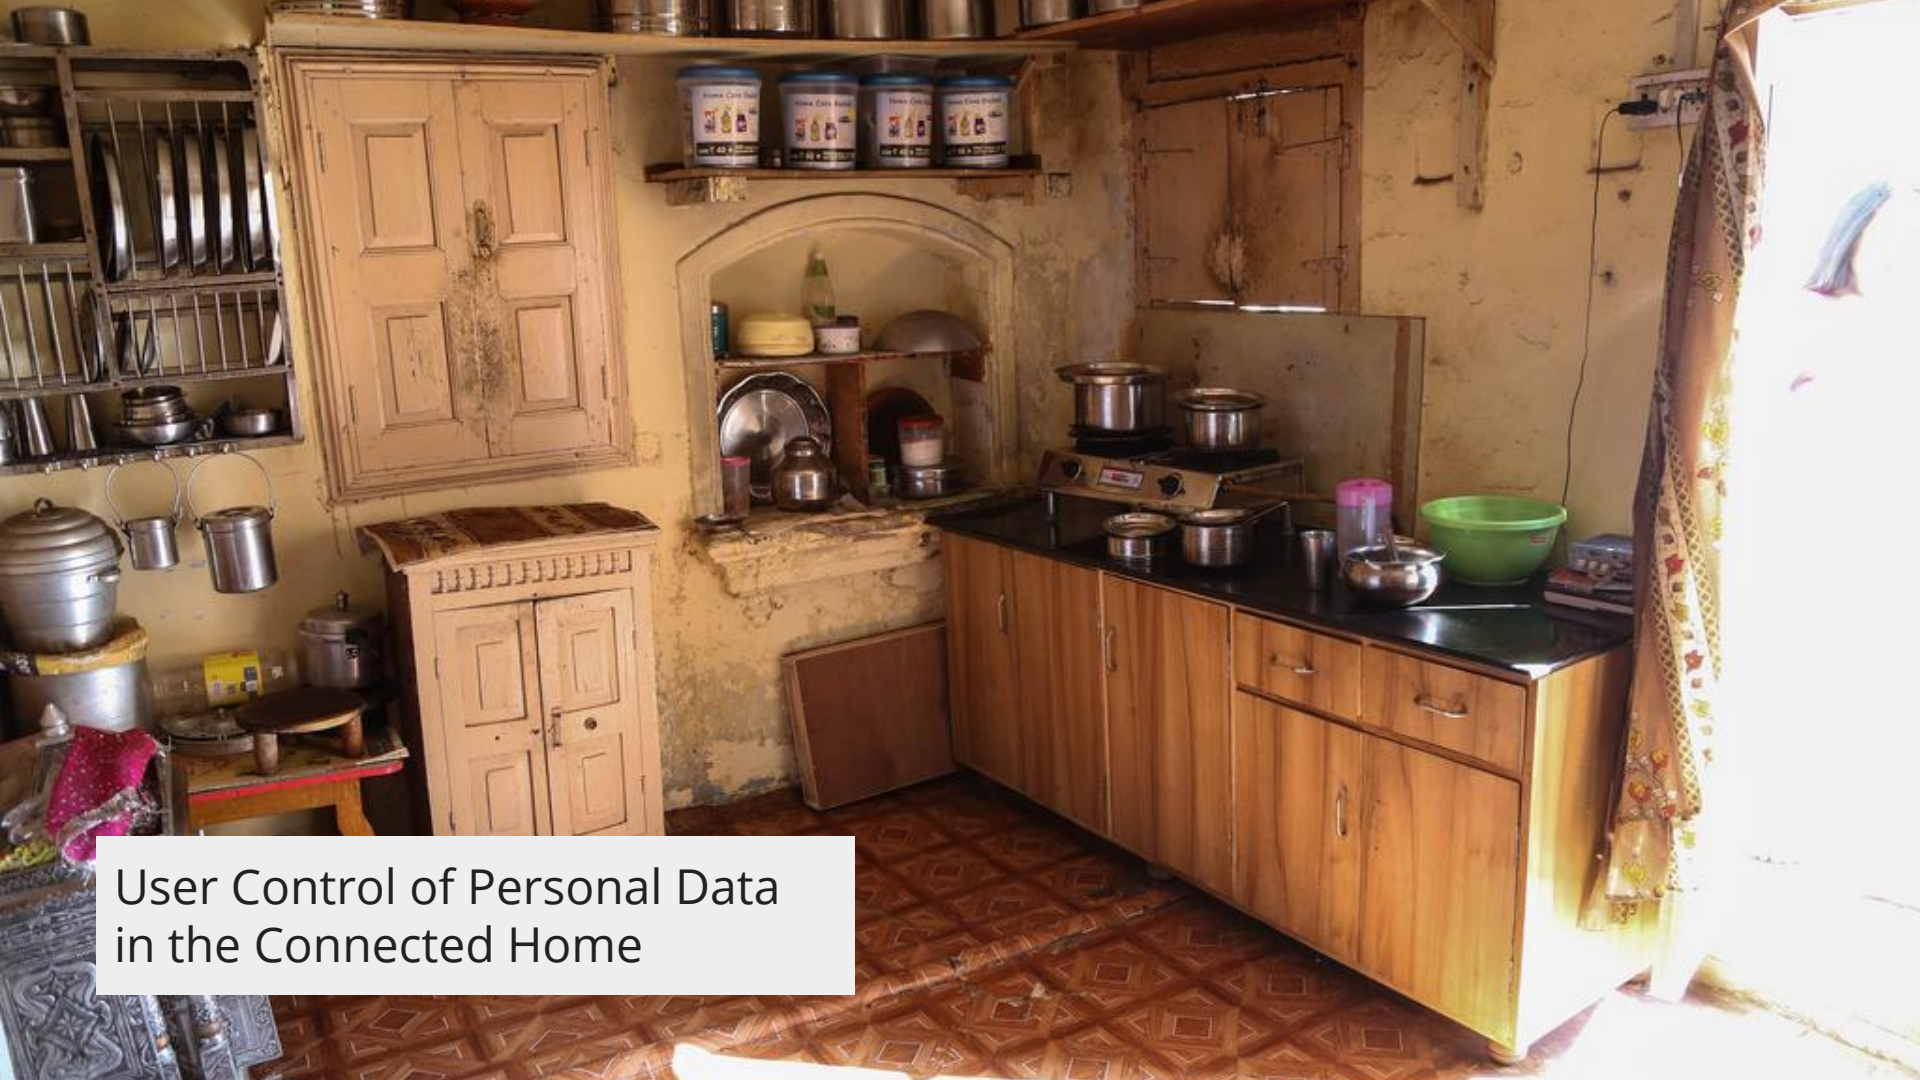

Create tangible expressions of how things could & should be, guided by user research.

Convenings

Gather smart, interdisciplinary practitioners to learn and prototype together.

Cultivation

Grow partnerships that sustain the initiative and share insights with Mozilla and network.

User Control of Personal Data
in the Connected Home

Get Involved!
